THE SPOKESMAN-REVIEW

“Realtors: More Homes Will Ease Prices.”

2/2/07

We're helping find solutions.

At the Washington REALTORS®, we're working with state and local government to improve our quality of life by finding solutions to improve traffic, the environment and the availability of middle income homes.

The Washington REALTORS® are working with local governments to:

- ✓ plan more effectively as more people move here to live and work
- ✓ increase the number of homes to meet job growth
- ✓ develop tools to accurately plan for growth and measure how we're doing
- ✓ fund roads, water, sewers and parks needed for new homes in our communities

Right now, the legislature is debating legislation crucial to these goals – HB 1726 and HB 1727.

You CAN make a difference. LOGON TO www.ItsAPriority.com and send a message to your legislators to support this important legislation.
